**Subject:** Mining at Lost Horse

Ravalli County Commissioner / Glenda Wiles,

I am very disappointed and concerned over the recent decision to allow mining at Lost Horse. Lost Horse is an invaluable resource for the people of Montana and all recreational users. The lack of appropriate cost comparison studies, scope definition, impact studies and adequate boundary definition makes it obvious that the project is being rammed through without due process or taking into consideration the concerns of all use groups and the environment. I ask that you **please** shoulder the responsibility as County Commissioner and postpone this project until the aforementioned studies can be completed.

Thank You.
